

## HOST 2023 | “Mix&Go!”, Zerica’s portable barman

Among the innovations that Zerica is presenting at Host 2023 is the **cocktail machine “Mix&Go!”**. This product, which won the **Smart Label Awards 2023**, is available in two versions: **Élite** (dedicated to the domestic sector, with 8 lines + 2 for cold and sparkling water) and **PRO** (dedicated to the world of hospitality, with 16 lines + 2 for cold and sparkling water). With a personalized selection of up to 16 lines with as many basic ingredients, **user can choose from a menu of classic cocktails that includes over 400 recipes**. Compact, light and fast, “Mix&Go!” has an **intuitive touchscreen** to manage the various functions, with the cocktail selection automatically updating based on the availability of the ingredients. Furthermore, it is possible to **control the operation remotely** via computer or mobile phone, even checking the number of cocktails made. In addition, it is a **light machine (only 6 kg)** and can be easily transported from one environment to another. A hotel, for example, can use it in the restaurant area to dispense fruit juices and then in the bar area for cocktails.
