

# The modern kitchen that combines high technology and design

As regards to the preparation of drinks, **Zerica** recently presented the innovative **"Mix&Go!" cocktail machine**. The device, with a personalized selection of up to 16 basic ingredients, allows user to choose from a menu of classic cocktails, which includes **over 400 recipes**, and prepare them quickly and easily. "Mix&Go!" is combined with the Auxilia app, created by the company, to remotely monitor every parameter of the machine and control its consumption.
