

# Elegant built-in solutions for water dispensing

**Zerica** and **I&D** (exclusive distributor in Italy for the domestic sector) present two sophisticated **built-in water dispensers**. The **i-Wall BUTTON** model has intuitive controls, an **illuminated dispensing compartment** (to conveniently accommodate glasses, bottles or carafes) and stainless steel buttons with LED backlighting. Besides, the product is equipped with the **Silver Turbo Clean technology** to guarantee a high level of hygiene. This model is also available in "skinplate Black" and stainless steel finishes. Besides, the **i-Wall Touch EVOLUTION** water dispenser represents a new built-in version with **latest generation touch screen** and **high-definition color display**. This Touch solution comes with a new graphic interface for intuitive and easy operation management.
